2-30 Henrietta St. (North side)

Baltimore, Md.

Private access

The group of two and a half story, two bay wide late Federal style brick houses that line this side of Henrietta St. were built by various local carpenters and brickmakers in the years between 1820 and 1835, the earliest houses being those to the west, closest to S. Charles St. 2-6 Henrietta St. were built contemporaneously with 821-829 S. Charles St. by the same builder, John Cator. 22-24 Henrietta St. is an unusual two story, two bay wide brick house set back from the street with the gable roof set perpendicular to the street instead of parallel to it. The house extends back to a depth of five bays. 26-30 Henrietta St. have been enlarged and are now all three stories in height with shed roofs and bracketed cornices.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This 2 1/2 story brick house with gable roof and a single dormer window, is quite similar to its neighbors 16-18 Henrietta St. Its facade is now covered with formstone. The east end wall of the house adjoins an alley and a partially empty lot.

The house is 2 1/2 stories in height, 15' wide, and extends back on a 70' deep lot. Its original brick has been covered with formstone. The steeply pitched gable roof is covered with tarpaper. A tall rectangular chimney is located on the east end wall. The original lintels and sills have been hidden by the formstone covering. No original sash remains and the openings are filled with modern 1/1 sash, including the dormer window. A modern panel door is surmounted by a four-light transom. The house sits on a fairly high basement, the entrance being reached by three brick steps, with a modern iron railing. A low, rectangular coal opening is located to the right of the steps.
